

Investing for Success

Snapshot report

Under the Investing for Success Agreement for 2016 Rosewood State High School

\$197 576

Our full 2016 agreement can be found via the link on our website homepage.

Our school initiatives are on track to meet or exceed our targets

During 2016, we focused on maximising the benefits of this funding for our students. After reviewing our 2016 *Investing for Success* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our initiatives to ensure that every student succeeds.

Initiatives implemented include:

- Continuing the school wide roll out of Tactical Teaching Reading
- Forming and delivering Corrective Reading classes to targeted students
- Implementing PAT R and PAT M testing to informing planning and instruction
- Continuing to embed explicit instruction including focus on think alouds, formative assessment and feedback.
- Implementing a school wide observation, coaching and feedback program for all staff to improve teaching practice and differentiate instruction.
- **We have met, or exceeded, targets that have been set around reading results, reading proficiency development, numeracy, achievement and teacher proficiency.**
